There has never been a time when careers guidance has been as important for young people as it is today. At Dowdales, we have a critical role to play in preparing our learners for the next stage of their education or training and beyond. Our learners will be embarking upon a career pathway, which is more challenging and complex than that faced by previous generations. Global opportunities and increasing technological advances will result in young people having several careers during their working life and potentially working in a career that does not currently exist.

With the greater choices of education, training and employment, our aim is to prepare learners for these ever-changing opportunities, responsibilities and experiences and to equip them with the skills to manage the choices, changes and transitions ahead of them.

## Our Values and Ethos

We want Dowdales to be a proud, thriving and ambitious community and want each and every student to aim high.

- **Proud:** We are proud of our school and so are our students. We also want them to be proud of themselves.
- **Ambitious:** We have the highest expectations of both ourselves and our learners. We believe that all of our learners can make progress and achieve academically, socially and emotionally.
- **Thriving:** We have created a safe, secure and happy learning environment in which all learners can thrive. We equip learners with the knowledge and skills they need to achieve well in life. We acknowledge and celebrate their successes widely.

## Entitlement

We want a whole school approach to careers education with every member of staff helping to deliver quality and impartial Careers Education, Information, Advice and Guidance, allowing learners to access the necessary information to help them make informed decisions about their futures. Our careers programme throughout the year supports our careers education curriculum and in line with the most recent careers guidance strategy (December 2017), our careers plan supports the achievement of the eight Gatsby benchmarks. We want careers education at Dowdales to not just be a stand-alone strand; we want it integrated into every area of the school and woven into the school curriculum. Our aim is that Dowdalians understand how what they are being taught will link to their future pathways.

We work closely with The Careers Hub and Cumbria Local Enterprise Partnership and have developed ties with Ullswater Community College to share ideas and advice with CEIAG. Our independent careers advisor is Inspira who support us with one-to-one guidance for KS4 students, focusing on our PP cohort initially and then other students. We are always keen on developing new partners to further develop our provision for our students.

## Aims and Objectives

These partners will work in partnership with subject areas/key stages to develop collaborations enabling opportunities for learners to see clear links between their subject learning and the world of work.

Comprehensive and accurate records will be kept to support the career development of learners. Destination data will be retained by the school for three years.

## **Targeted support**

The school will work with Inspira to identify learners who need targeted support or those who are at risk of not participating in post-16 pathways and becoming NEET. Agreements will be made over how these learners can be referred for support drawn from a range of education and training support services available locally.
